

I am writing this today to express my concern over the proposed plan to roll back net neutrality. Equal access to the internet is a manifestation of the freedoms we hold most dear to our hearts, and more relevantly, those freedoms enshrined in our Bill of Rights. Net neutrality is an essential protection guaranteed by the FCC, and it would be of great concern to me if you were to roll this back in any form, including moving the rules regarding net neutrality from Title II. I strongly recommend you keep these rules backed by Title II.

Thank you,
Kawan Nanavati
